(54) Title: **A PORTABLE DEVICE FOR CONNECTION TO THE PERSON**

(57) Abstract: A portable device (2) comprising: unauthorized separation detection means arranged to detect the unauthorized separation of the portable device (2) from a person; and control means arranged to effect at least partial disablement of the portable device (2) in response to the unauthorized separation of the portable device (2) and person, wherein the unauthorized separation detection means are means for detecting the release of a releasable connector (24) connecting the portable device (2) to the person.
